

Table made of a 30x30x1.5 mm steel tube frame and thermo-treated pine or hardwood slats, section 40x30 mm, with 4 mm thick sheet metal reinforcement ribs. All metal parts are galvanised and coated with thermosetting polyester powder. The hardwood is treated with water-based pigmented impregnation, while thermo-treated pine is supplied not impregnated (impregnation available as an option). All fixings are in AISI304 stainless steel. Prepared for ground fixing through M10 threaded bars to cement (included).
